

PLAN FOR DAILY SCREENING COVID-19 APPROPRIATE

PURPOSE:

To establish a process to recognize COVID-19 symptoms, rapidly and properly respond to clients/staff with suspected or confirmed COVID-19 symptoms.

PLAN:

1. Family update packet will be sent to client/family 2 weeks prior to re-admission. Packet will include:
 - Center updates
 - Two (2) 14 day Health Journals
 - Education material about COVID-19 symptoms
 - Face mask Permission slip

2. Nurse will call client/family one day prior to admission. The following will be discussed:
 - Center updates
 - Review paperwork
 - Area any symptoms

3. Prior to entering the Center staff and clients will have a daily wellness check. This information will be documented on a Daily COVID-19 Symptoms Review Form or a Staff & Participants COVID-19 Wellness Check Screening Tool.

4. Should anyone present with COVID-19 related symptoms, they will immediately go to the Isolation Room until transported from the center.

Should anyone present with emergent COVID-19 symptoms, they will be placed in an Isolation Room until transported from the center via 911.
